Thank you!

Details on the GenX analysis would be helpful to OPPT, as well as other compounds that may be looking like a concern based on collection data.

Nancy

Lee/Nancy/Patrick:

FYI, very high level summary – ORD briefed the NC DEQ on the Cape Fear PFAS analysis today. Over 50 people participated. The discussion included results of the PFAS analyses conducted on the samples collected by NC DEQ from the Cape Fear River Basin. The results include analysis for GenX along with ORD's non-targeted analysis.

Jennifer, any idea what the prelim analysis showed? And anything else that you may want to mention?

If you need more info, please let me or Jennifer know. Thanks guys, Richard

Richard Yamada
